**DINING TABLE
KAYAK TEAK**

Perfectly balanced and sturdy like the sleek boat and hunter of the arctic, the Kayak dinner table is a playful construction of wood and steel. Four glossy circles puncture the table top indicating the cylinders supporting it and interrupt the gentle grain of the surface. The wooden top has a trim that neatly angles outward like a rolled Kayak, while the legs below are joined together with a technical yet sculptural approach. This table easily sits eight to ten people comfortably and adds the perfect sporty element into its environment.
