SIDEBOARD TWIN

This cabinet appears monolithic, but the playfully circular features defy its rigorous profile. Emphasizing positive and negative space, the bulbous knobs and round concave drawer pulls invite a bemused smile and tactile exploration. While this piece is deep enough to store files, binders and records the whimsical design helps conceal the official contents. Deep shallow drawers provide practical space to store smaller items and the attractive dimensions of this piece make it the perfect place to display valued objects. The body of our Twin sideboard is produced out of solid Ash and hand-lacquered, while its namesake knobs are made from Olive wood, known for the contrasting appearance of soft amber tones with an intense grain.
